Petition: Please sign and add your contact information if you agree with this petition to leave the downtown streets as they are:

I declare by signing this petition that I want the City of Prince George to stop unnecessary spending (City has proposed amount for project at $1.9 million) and leave the downtown city streets alone. There is no problem with the flow of traffic, we don`t need to change our one-way streets and do not need to build expensive roundabouts!
